

In-Line Gasket Strainers

Gasket Strainers are an effective way to protect downstream metering and regulation equipment from weld slag and other debris in the gas stream.

Features

- Gasket Material – High quality GARLOCK 3000 asbestos-free.
- Available in Full Face or Ring Gasket versions.
- Screen Material – Stainless Steel.
- Available in 20, 40 or 80 Mesh.

Advantages

- Wafer construction allows for easy installation between two mating flanges or a flange and meter/regulator – no additional space is necessary.
- Ideal for protection against line debris fouling downstream equipment.
- Strainer also serves as a functional gasket.
