

AC-250 RMD USB Dongle

The Honeywell-American Meter AC-250 is the industry's most cost-effective gas meter for residential and small commercial applications. It is unequalled for accuracy retention and for life cycle maintenance economies.

The USB Dongle, used in conjunction with the AC-250 Remote Meter Disconnect (RMD), allows the gas utility to increase productivity in managing safety, revenues, and costs while enhancing customer service, without the need to purchase expensive equipment.

The USB Dongle will connect to existing utility PCs that run Windows 7 Operating Systems or higher. Along with the Honeywell Remote Meter Interface (RMI) software, the utility can communicate with any AC-250 RMD meter with minimal capital investment.

Features and Benefits

Compact device, suitable for portable or fixed applications.
Standard USB port reduces the need for proprietary cables.
Built-in encryption ensures communications are secure.

Specifications

Communication: 900 MHz ISM Band

Communication Range: 950 feet
(line of sight)

Data Security: AES-128 encryption

Operation Temperature: 20°F to 140°F

Size: 5 ½" L x 2 " W x 1" D

Weight: .25 lbs

Cable (included): USB A to USB B

The AC-250 RMD USB Dongle is a compact device, suitable for portable or fixed applications.

User Information (Part 15.105)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and the receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

If you experience trouble with this equipment, please contact Customer Services at Honeywell American Meter. Do not attempt to repair this equipment yourself unless you are replacing the entire module.

Warning (Part 15.21):

Changes or modifications not expressly approved by Honeywell could void the user's authority to operate the equipment.

FCC and Industry Canada Compliance Statement:

This device complies with FCC Rules Part 15 and Industry Canada RSS-210. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The radiated output power of the controller is well below the FCC and ISSED radio frequency exposure limits. The controller should be operated at a minimum distance of 20 cm from a person's body. Changes or modifications not expressly approved by the party responsible for compliance void the user's authority to operate the equipment.

La puissance de sortie rayonnée du contrôleur est bien en dessous de la radio FCC et ISSED limites d'exposition aux fréquences.

Le contrôleur doit être utilisé au minimum distance de 20 cm du corps d'une personne. Changements ou modifications non expressément approuvés par la partie responsable de la conformité annuler la autorité pour faire fonctionner l'équipement.
