RPM Series[™] Rotary Meter "C-Class"

Replacement Parts List

Line Mounted Models

AMERICAN METER 5 YEAR LIMITED WARRANTY RPM SERIES ROTARY METERS

American Meter Co. Industrial Products Division (hereafter referred to as the Company) offers to supply Rotary Meters of exceptional design, material and workmanship. The company will correct any defect(s) in material or workmanship occurring during the period of one year after shipment (the "Warranty Start Date") providing the Purchaser has given the company immediate written notice of the defects.

In addition an extended 5-year warranty to the original owner in a permanent meter installation is offered against structural failure and for other identified components (list furnished by writing our general offices) from the Warranty Start Date under normal use, operation and maintenance.

The Company obligation under this warranty is limited at its option to repayment of the purchase price, repair, replacement, or furnishing a similar part upon inspection and confirmation of the defective condition.

THERE ARE NO OTHER WARRANTIES, EITHER EXPRESSED OR IMPLIED AND ANY OTHER WARRANTIES ARE HEREBY EXPRESSLY DISCLAIMED.

No allowance or reimbursements will be made for repairs or alterations unless made with the written consent first obtained from the Company.

In no event shall the Company liability to the customer, regardless of the reason, exceed the purchase price of the product. No claim of breach of warranty shall constitute a cause for cancellation of this contract or any part thereof.

The Company reserves the right to exclude from this warranty damages caused by any of the following:

- Overpressurization beyond the badge rating of the meter.
- · Snap acting loads.
- Work done, apparatus furnished, repairs or alterations made by others.
- Auxiliary equipment supplied not manufactured by the Company
- Less than specification performance caused by improper gas stream filtration, and improper installation.
- Collision, fire, theft, lightning, vandalism, explosion, natural disaster, or objects striking the meter.
- Misuse of the meter for applications and processes not originally designed for or recommended by the company.
- Corrosion due to improper environmental conditions, chemical treatments, after-market products and chemical reactions.
- Sealants applied as excessive or not recommended by the company.

Laws of the Commonwealth of Pennsylvania are applicable to this warranty.

A CAUTION A

"As a knowledgeable user of American Meter's products, we are sure that you are aware that parts in the Company's meters and regulators contain or are coated with heavy metals such as cadmium, zinc, lead and chromium. Obviously, therefore, repair or refurbishment of this equipment should take into account the presence of these materials and should comply with all state and federal requirements concerning worker protection, proper disposal and safety, including protection against exposure to dust and fumes."

A Complete Family of Gas Measurement, Pressure Regulation, and Filtration Systems

Pre-Calibrated Replacement Cartridges

Tested at atmospheric or actual operating pressure, pre-calibrated measurement cartridges are available for field service changes. Cartridges returned to the factory for re-certification and/or service are tested at five flow rates and at

Rotary Meter with Prefabricated Sets Prefabricated new or replacement meter sets to customer

specifications are available.

Diaphragm Meters American Meter's compact, lightweight, aluminum case meters are designed to provide positive displacement accuracy for industrial or commercial loads. See bulletin SB 3510 for more information.

Pilot-Loaded Regulators 1800 PFM industrial regulators are designed for applications requiring medium-to-high capacity, extremely precise outlet pressure control, and fast response to changing loads. See bulletin SB 8551 for more information.

Turbine Gas Meters

High performance meters provide accurate measurement of high volume gas flow. Turbines are available from 3" to 12" line sizes and line pressure up to 1440 psig. See bulletin SB 4510 for more information.

Measurement Engineers Since 1836

Represented by:

Filters

Filtration down to 10 microns. Protects meter and regulator stations from dirt and pipe scale damage. See bulletin SB 12521 for more information.
